

Our Space

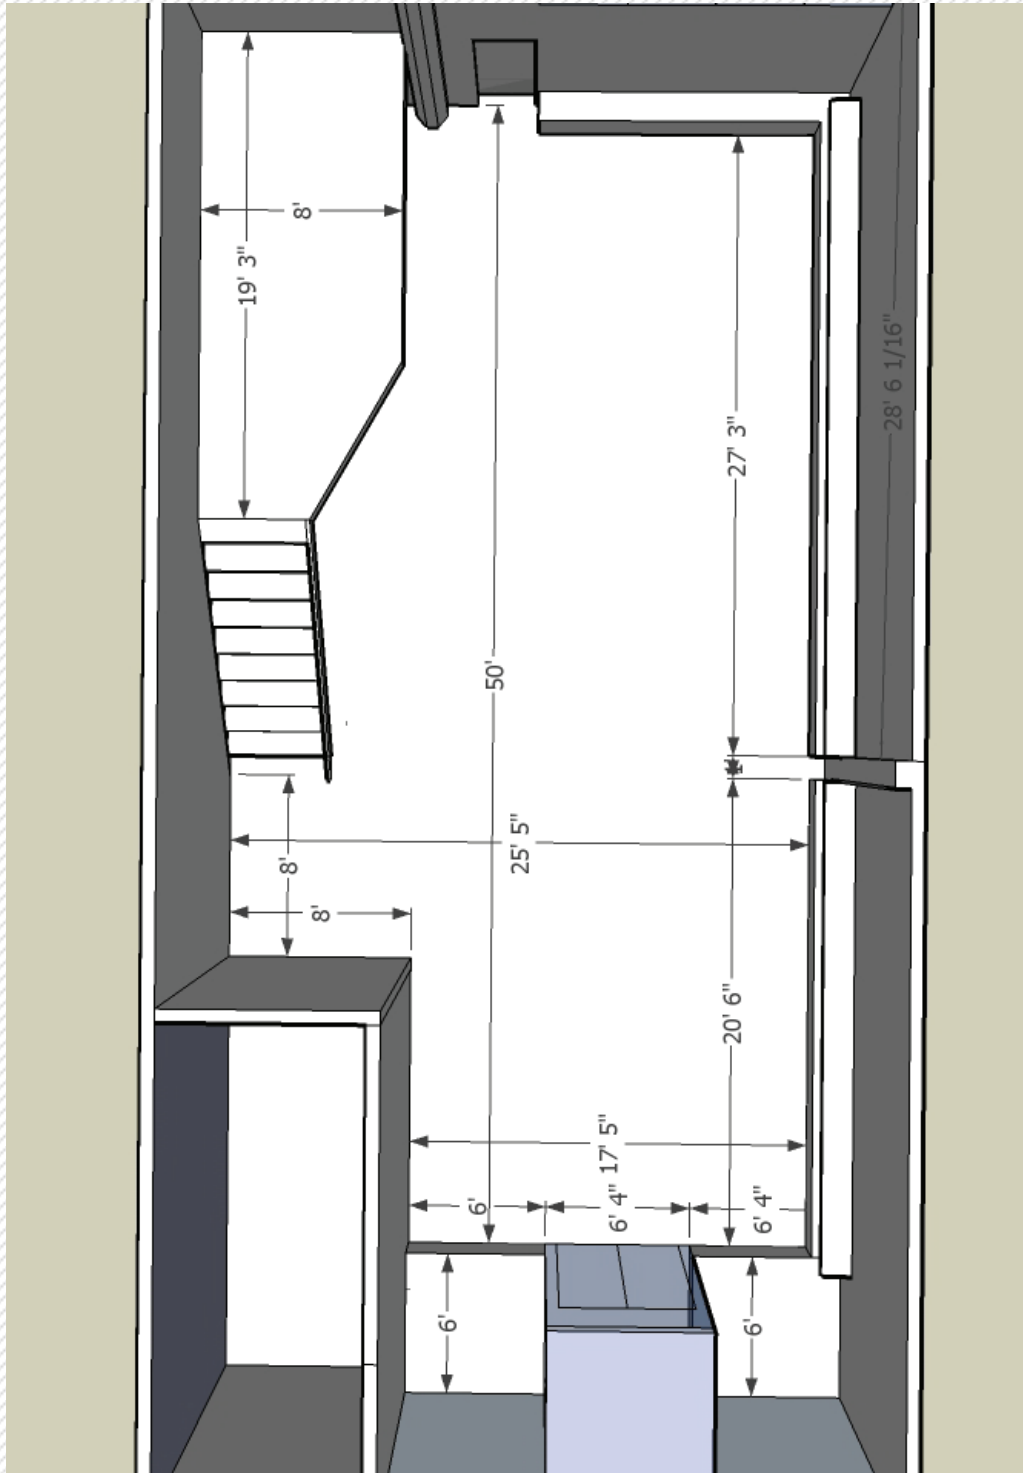

Your first impression upon entering our space could be the height of our ceiling or the width of our walls...maybe it's the huge variety of t-shirts on our floor. It could be the family feel of the staff that works here day in and day out pushing to take our space to the next level. What we really hope you feel...is what all of us who work here feel. It's the feeling that there is something bigger than just a store going on here, something different from other retail spots.

D-Structure is coming up upon its 2nd year anniversary. Since day one we have worked to make this more than a retail store, more than an art gallery, more than just a venue for events. We want to create space and platform for local artists and designers to feel like they are a part of a movement. We want to build a location were art and fashion collide daily, creating a lifestyle space like no other.

Our events are our best time for us to really show and prove what we are about. Work hard , live hard and play harder. But a party by yourself is no party at all. We want our events to reflect our dedication to our extended Family of the surrounding community and neighborhood. We strive to have fun and celebrate a openness of lifestyle. Our events are a way to give back to those who give to us. We want our events be a multi platform for networking, cross pollination of ideas, and Space for transcultural experiences.

We here at D-Structure offer our atmosphere and space to those who are interested in not just throwing events, but creating a backdrop to an experience and a memorable ambience. Where the crowd is happy to be with us and we are happy to have them. We know here at D-Structure that it all starts with just an idea and resonates from there. Every large movement is nothing without small ones and that is where we center our focus. The subtle details behind the veil that ultimately lead to an event, that leaves everyone walking away with a feeling of fulfillment and a lingering appetite for more.

D-Structure strives to bridge the gap between the tastemakers and the taste partakers, letting people feel like they are part of something bigger than themselves. Our staff strives to level the playing field so that everyone can be equally a part of the D-Structure experience. Our No. 1 question to our clientele will always be, "Is it to your taste?"

We know when you speak of creating culture you are talking about tastemakers, and if you have even just a few tastemakers that are willing to tailor their flavor to the public's palette, you will have a recipe for success.

No matter your flavor — be it a fundraiser, record release, video premier, private party, DJ event, political function or art show, we focus on connecting clientele one-on-one with their core audience, and vice versa. We know anything that is about interacting and building community with people is always the best medium for the message. We believe that any connection can be made if the context is correct, so whatever the event or audience, we think that climate is the key. We look at ourselves as a hub of culture and community flavor, offering different levels of involvement depending on the event. We can supply a huge range of elements to your event starting with the essential basics of a warm welcome and friendly feel, all the way up to a multimedia package with full documentation and online promotion/coverage of your event.

We are located directly in the Lower Haight Neighborhood at 520 haight st just off the fillmore street intersection. If you are interested in getting started on creating your event or party with us at our space. Please contact us to inquire at:
